TREKA SPORT

ABOUT BRAND

Treka Sport is a wholesale distribution office specializing in a wide range of sportswear and equipment for various sports.

- We equip sports shops with complete setups (full furnishing) at wholesale prices.
- We supply sports academies, clubs, and youth centers with all their sportswear and equipment needs.

Our Vision:

We aspire to make Treka Sport one of the leading names in the sports supply industry.

We aim for Treka Sport to be the first brand people recommend whenever someone needs a trusted sports supplier.

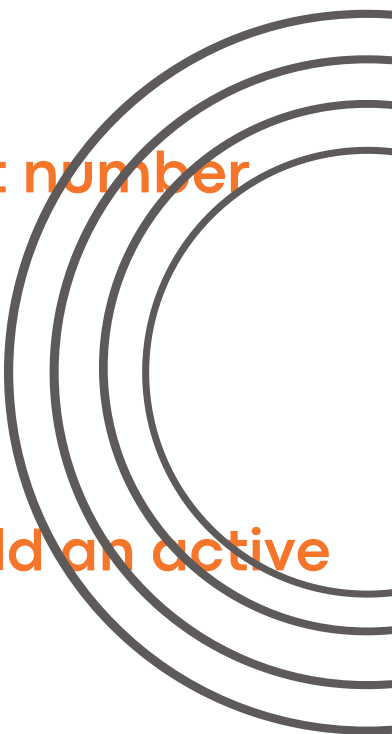

Our ambition is to grow and transform the brand into a large sports mall specializing in sportswear and equipment.

CONTENT OBJECTIVES

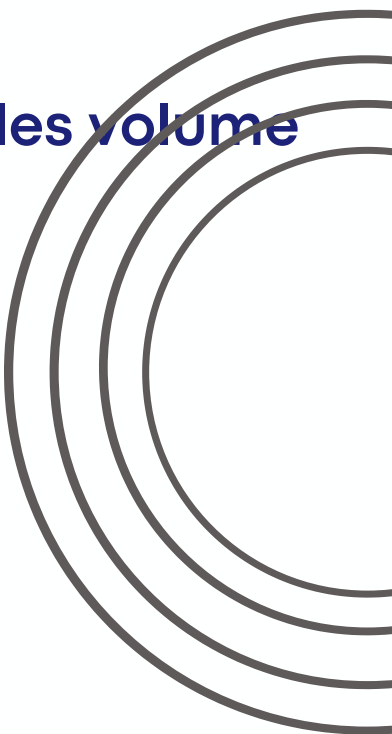

Based on the initial analysis, Treka Sports' content strategy aims to achieve the following objectives:

- **Increase Brand Awareness:** Make Treka Sports a familiar name in the Egyptian sports product market and increase its recognition as a reliable and high-quality brand.
- **Increase Share of Voice:** Enhance the brand's presence in sports and sports equipment-related conversations compared to competitors.
- **Improve SEO Ranking:** Increase Treka Sports' visibility in organic search results for relevant sports product keywords.
- **Increase Followers and Engagement on Social Media Platforms:**
 - Increase the number of followers on the Facebook page from 4k to a target number (to be determined later based on realistic growth).
 - Increase the number of followers and saved posts on TikTok.
 - Increase engagement (comments, likes, shares) on both platforms and build an active sports community.

CONTENT OBJECTIVES

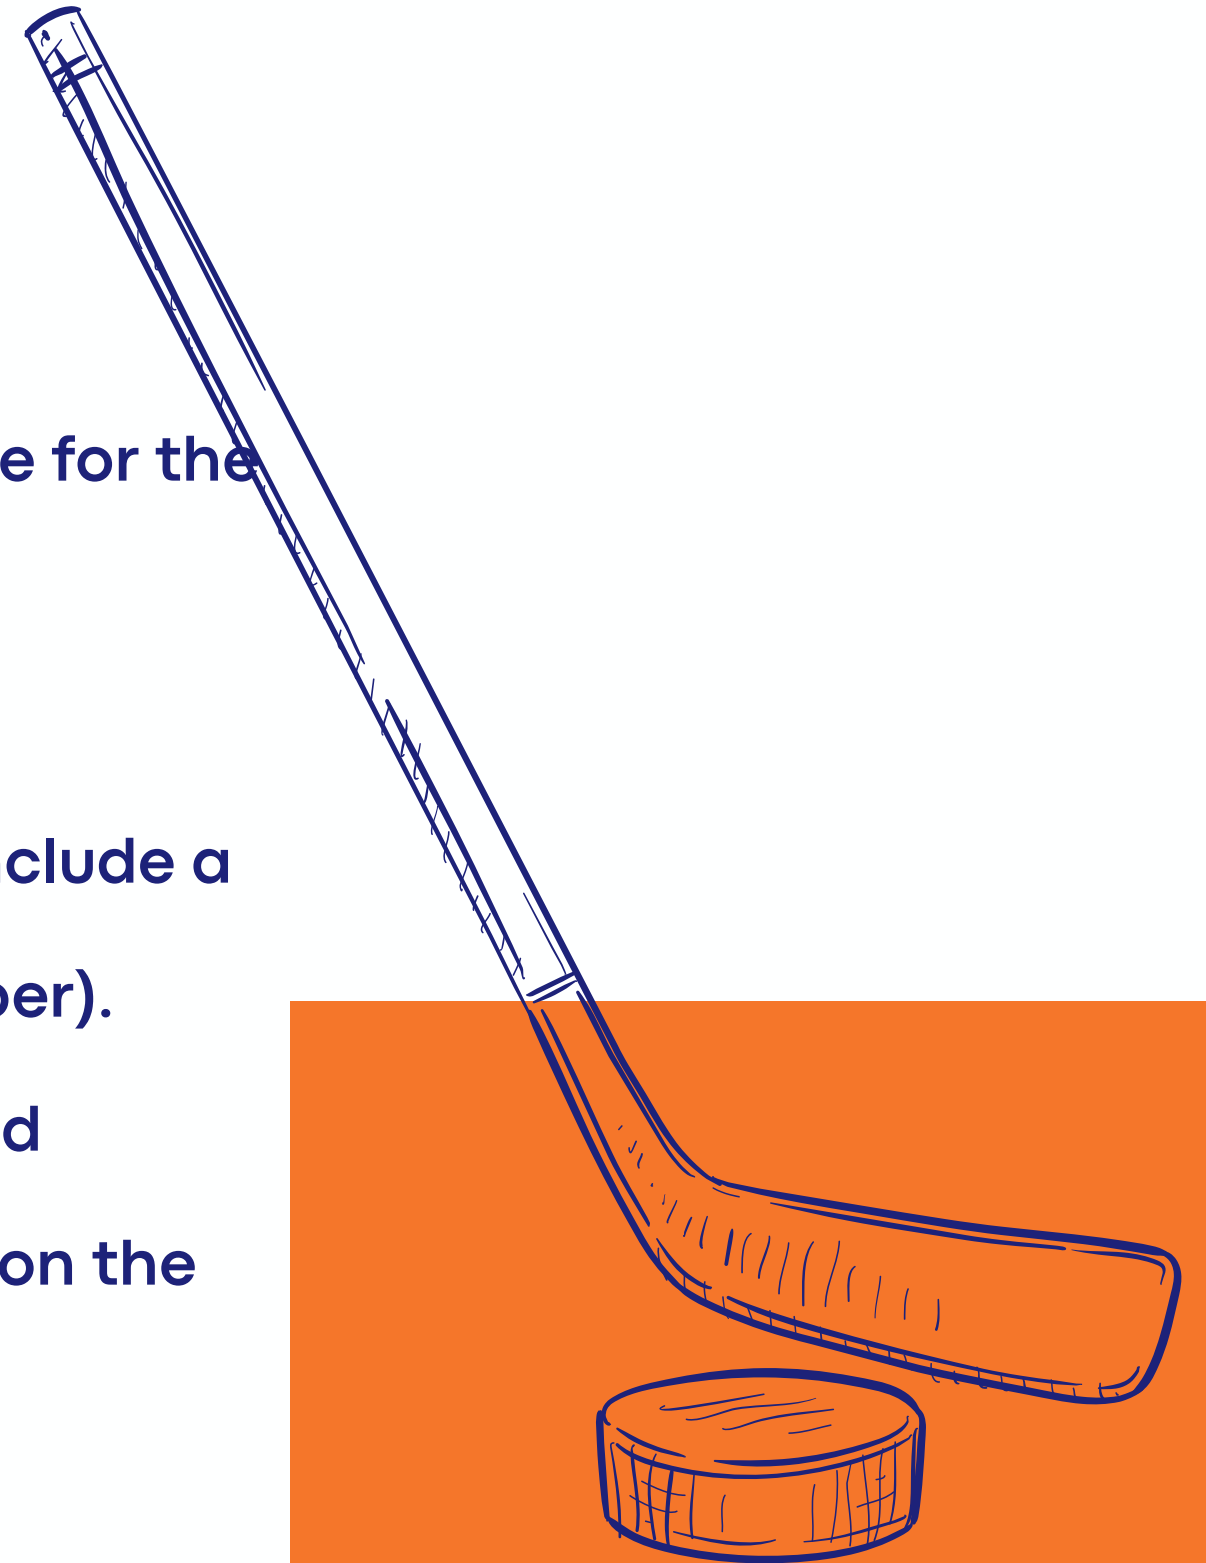

- **Penetrate New Markets:** Target new customer segments such as schools, universities, and individuals who practice sports independently.
- **Attract High-Quality Leads:** Use brand-building content to attract more suitable potential customers interested in sports products.
- **Increase Customer Lifetime Value:** Enhance the loyalty of existing customers and increase the total revenue generated from them over the long term.
- **Generate Positive Reviews and Testimonials:** Encourage satisfied customers to provide positive reviews and testimonials for products and services.
- **Increase Sales:** The ultimate goal of all marketing activities is to increase sales volume and overall company revenue.

SWOT ANALYSIS CONTENT ON FB PAGE

Strong points

- Language/Tone of Voice: The use of Egyptian slang is suitable for the target audience (traders and customers).
- Product Quality: Products are characterized by high quality.
- Product Descriptions: Descriptions are concise, direct, and include a call to action (although some posts lack a link/contact number).
- Brand and Product Variety: Offers a wide range of brands and products (but needs to be added to the introduction section on the Facebook page).

SWOT ANALYSIS

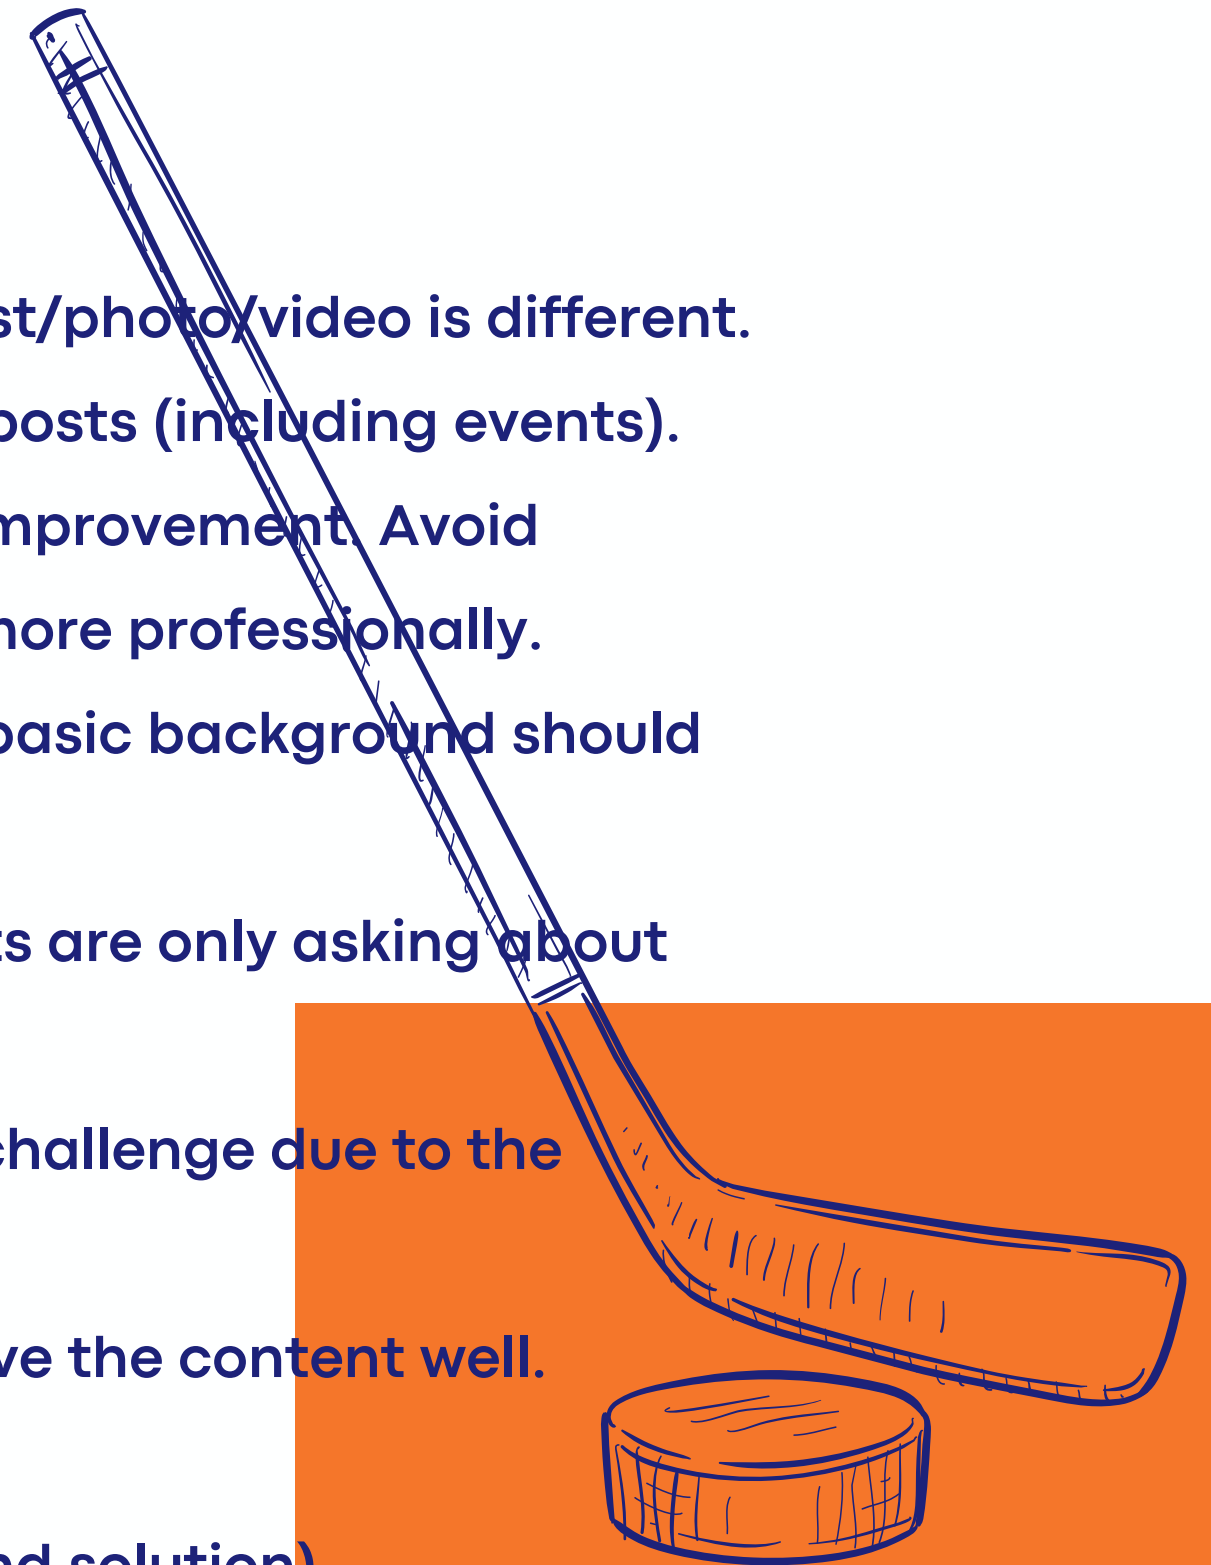

CONTENT ON FACEBOOK PAGE

Weak points

Visual Identity: Lack of a unified visual identity for the brand; each post/photo/video is different.

Adherence to the logo colors and a specific font is required for static posts (including events).

- **Photo and Video Quality:** The quality of photos and videos needs improvement. Avoid vibration in videos, shoot in better lighting, and display products more professionally.
- **Photo Backgrounds:** Photos have different backgrounds. A single basic background should be chosen for all photos of the same type/product.
- **Comment Rate:** The comment rate is very low, and most comments are only asking about the price.
- **Engaging Content:** There is a need for more engaging content (a challenge due to the target persona, but essential).
- **Video Audio:** The audio used in videos is not trendy or does not serve the content well.
- **Logo:** The logo is missing in most content.
- **Content Captions:** Content captions need a hook (e.g., problem and solution).
- **Customer Persona:** The customer persona needs to be clarified/addressed better in captions (school? club? event?...etc).

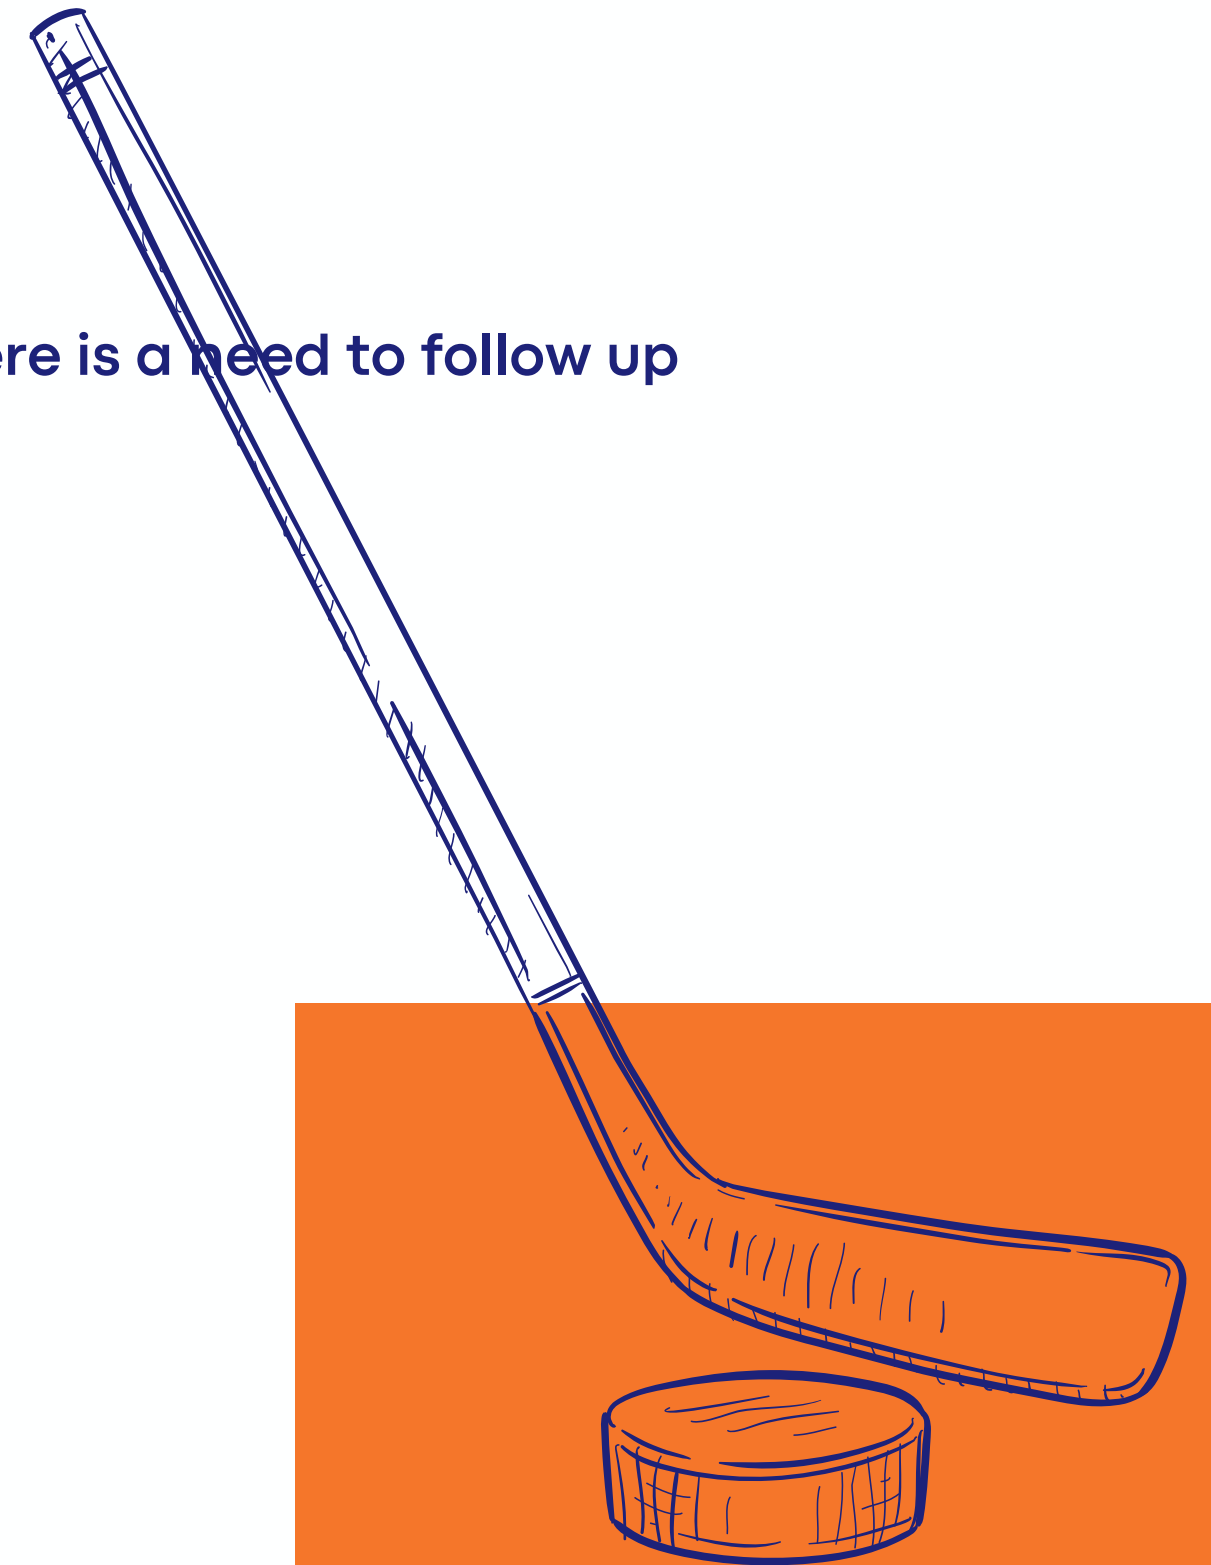

SWOT ANALYSIS CONTENT ON FB PAGE

Opportunities

Sports Events and Clubs: Sports events and clubs are everywhere. There is a need to follow up on upcoming events and relate content to them or address them.

Threads:

- Strong competition (local & global)
- Price fluctuations
- Changing consumer preferences
- Economic instability

BUYER PERSONAS (1)

The Sports Club / Team Manager (B2B)

Age: 30–50 years old.

Occupation: Sports club manager, school sports coordinator, team coach.

Interests: Providing the best equipment and apparel for their teams/members, cost-efficiency, durability and quality, ease of bulk purchasing, and building a good reputation for the club/team.

Goals: Equip teams with the best gear, get good deals for bulk purchases, ensure player/member satisfaction with equipment, maintain the club's budget.

Concerns: Delayed delivery, product quality not meeting expectations, difficulty dealing with suppliers, high costs, unavailability of required sizes or quantities.

BUYER PERSONAS (2)

The Aspiring Athlete / Fitness Enthusiast

Age: 18-30 years old.

Occupation: University student, young employee, gym-goer.

Interests: Maintaining physical fitness, trying new sports, following sports fashion trends, seeking high-quality sports equipment at affordable prices, and looking good while exercising.

Goals: Improve athletic performance, maintain a healthy lifestyle, find stylish and functional sportswear, and participate in local sports events.

Concerns: Expensive equipment, low-quality products that don't last long, inability to integrate into the sports community, and injuries

BUYER PERSONAS (3)

The Health-Conscious Parent

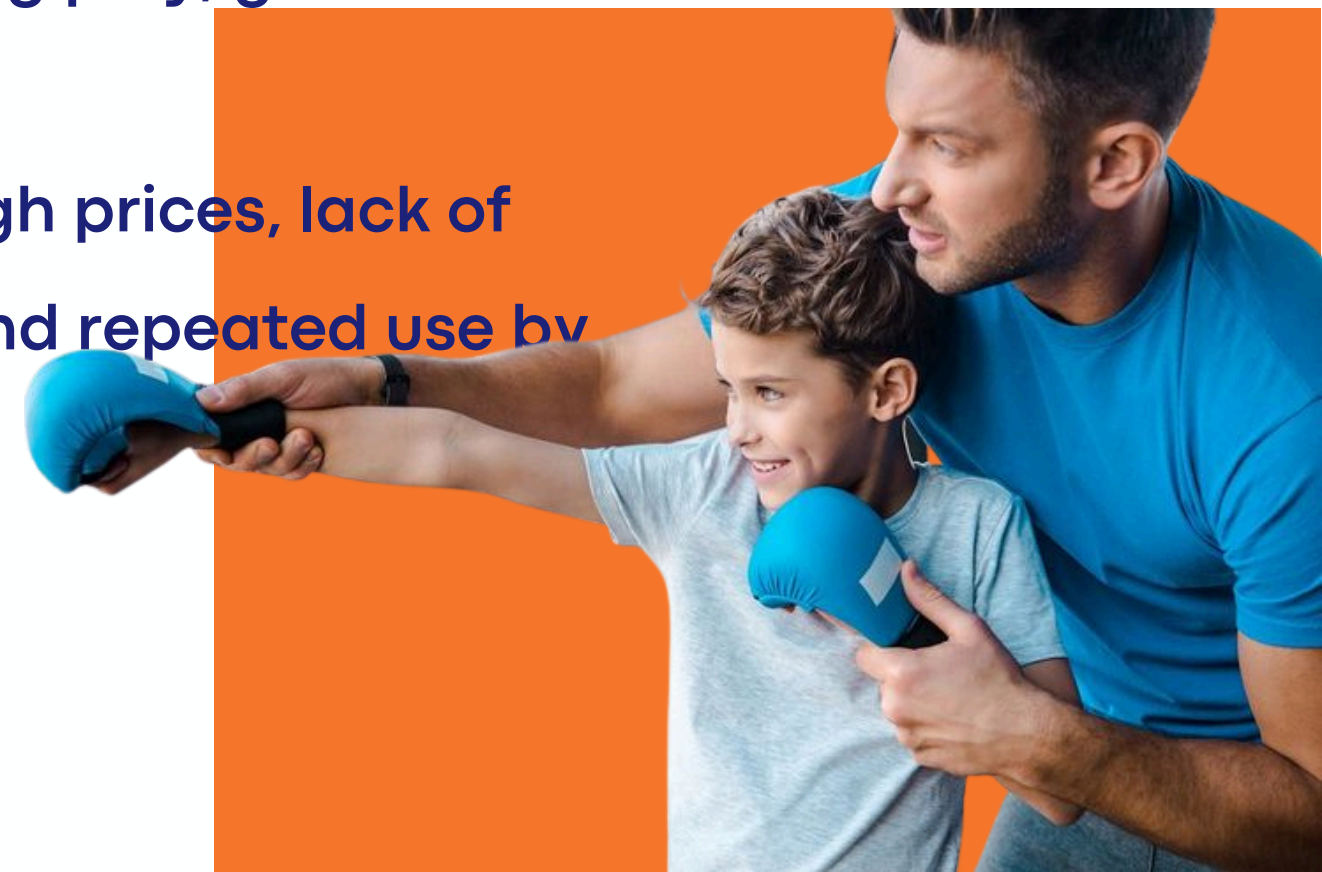

Age: 30-45 years old.

Occupation: Homemaker, employee.

Interests: Their children's health and physical activity, providing safe and comfortable sports apparel and equipment for their children, family activities, and value for money.

Goals: Encourage children to play sports, find suitable sports equipment for children's age and activity level, ensure children's safety during play, get durable products.

Concerns: Unsafe products, harmful chemicals in clothing, high prices, lack of suitable options for children, and products that don't withstand repeated use by children
